Call for Posters
CASAE Annual Conference
June 1-3, 2023
OISE/University of Toronto

Conference theme:
Returning to / Creating / Encountering Community

Each year, the Conference of the Canadian Association for the Study of Adult Education (CASAE) hosts a Poster Session where researchers have an opportunity to present a visual display of research in the field of adult education. Poster presenters enjoy a unique opportunity to network and share research. The development of a poster has proven valuable for researchers new to the field, as well as for established researchers seeking feedback on work in progress. As valued CASAE conference participants, poster presenters have an opportunity to attend all the presentations and events of the conference. The abstracts for accepted posters will be published in the conference proceedings.

This year, we are also accepting poster submissions in alternative formats, including but not limited to:

- photography
- audio/visual submissions
- mixed media
- textiles
- immersive work
- other approaches not listed here

Guidelines for Poster proposals:

- For those interested in presenting a research poster at the 2023 CASAE conference, please submit your poster proposal to Vidya Sri (vidya.sri@mail.utoronto.ca) by April 15, 2023. If you are submitting a poster proposal for an alternative format poster, please include a brief explanation of how this would work in a shared space.
- Your poster proposal must include:
    - author name(s)
    - institutional/organizational affiliation(s)
    - title of poster
    - 150 to 200-word abstract
